

MFC0008 Twin Otter Rainbow Range to Misty's Place.

This trip will take us from Fort St. James (Perison) area, through the Rainbow Range, formally known as the Rainbow Mountains on the western edge of the Chilcotin Plateau all the way back to Misty's Place PF20 to put us in position for another excursion. This trip has seven varied legs but a real nice mix for a Twin Otter. The Twin otter has lots of power and is very maneuverable: a great aircraft to fly. A few of the airfields in this trip require RTMM scenery additions: see the tour download readme file which contains the Add-on Scenery pieces that are required.

For some real Twin Otter adventures supplies be sure to check out: <http://twinotterspotter.blogspot.ca/>

and for some DHC-6 Twin Otters in action:
