

This trip takes place outside the Alaska ORBX regions. Kodiak island coverage is currently outside the RTMM scenery development area however we travel this excursion to the largest Island of the Aleutian chain to see the natural landscapes of the island. Your sim does capture the scenic aspects of this Island and the airports/seaplane bases surrounding the Island.

There are a ORBX few scenery pieces that add to the natural landscapes covered in this excursion: (Not mandatory).

We would encourage use of these software additions as they do enhance the scenic areas: ***FTX/ORBX Scenery (Payware)*** <https://orbxdirect.com/>

***FTX Global Range:***

- FTX Global BASE Pack
- FTX Global Vector
- FTX Global open LC North America
- FTX Global Trees HD

***North America Product Group: Regions***

- ORBX NA Freeware airports.

**If you have any issues or problem setting up your scenery, just let us know and we will be glad to assist you.**
