

MFC0033 Sitka-Haida Gwaii-Port Hardy POI Excursion

We are departing Sitka Alaska and heading southward. We'll cross and weave through many islands in Alaska: Baranof, Coronation and the many islands that cluster the Prince of Wales. Then continue our voyage crossing the Dixon Entrance into BC Canada where we will visit Graham and Moresby Islands and explore the many points of interest locations along the Haida Gwaii, the Hecate Strait, and Queen Charlotte Sound before finally reaching our destination of Port Hardy BC.

This POI excursion has 22 flight legs most of which are not too long but have many interesting stops along the way. You will require some concentration to meet the challenge of this POI excursion.

Aircraft: You'll require an amphibian single prop fixed wing or amphibian heli to be able to navigate the landings in this trip. Multi and/or Turbo is also permitted but be very careful!!!

Tour Flight Leg Rating Conditions: "6Ax":
6=Max landing rate is -600fpm,
A=Autopilot and/or GPS use permitted: (but not recommended).
x-# of Stop-overs in the flight leg*. Watch the flight legs closely as you progress through each leg of the excursion.

The Tour download for this excursion is available and a must. It is in the Tour downloads section which contains the all the tour details, scenery requirements, stop-over locations (and there are many), flight plans, as well as the award for completion so make sure you obtain the tour download for all of the tour specifics.

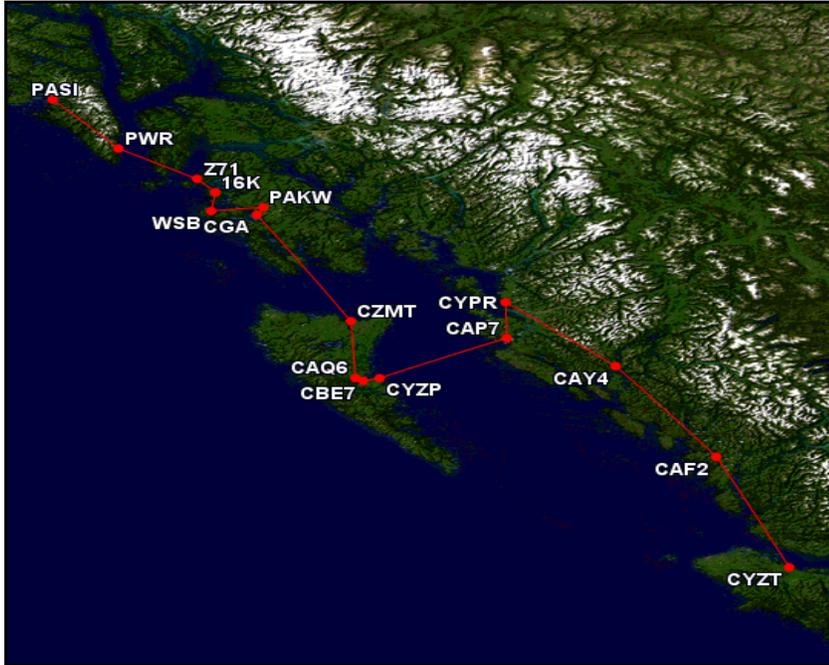

MISTY FLYING CLUB – MFC0033 SITKA-HAIDA GWAII-PORT HARDY POI EXCURSION: QUICK ROUTE (MAJOR AIRPORTS)

Quick Route: PASI-PWR-Z71-16K-WSB-PAKW-CGA-CZMT-CAQ6-CBE7-CYZP-CAP7-CYPR-CAY4-CAF2-CYZT

<http://www.gcmap.com/>

MISTY FLYING CLUB – MFC0033 SITKA-HAIDA GWAII-PORT HARDY POI EXCURSION: ROUTE MAPS

MISTY FLYING CLUB – MFC0033 SITKA-HAIDA GWAII-PORT HARDY POI EXCURSION: TOUR CONDITIONS

Conditions/Restrictions to successfully complete this VA Exploration:

There is only one, well two restrictions that applies while flying the flight legs of this tour. All landings, including stop-overs, must not exceed a landing rate of greater than **-600fpm**. If there are four stop-overs in a flight leg – all landing must be -600fpm or under as not to damage the aircraft and the second restriction: PLEASE DON'T CRASH! As our aircraft are getting more and more expensive to upkeep and we don't want any injuries this year!

Standard .pln FP files provided so you can fly the route as per the flight plan prepared which include all the airport locations as well as all the waypoints outlined by the fp route. (No sky vectors in this one, just a tad too complex to get all the fp waypoints into a sky-vector map).

Keep close eye out for all the various scenery pieces from cabins to airstrips to lighthouses etc etc. There is a lot to see in this trip!

MISTY FLYING CLUB – MFC0033 SITKA-HAIDA GWAII-PORT HARDY POI EXCURSION: FLIGHT LEG DETAILS

Leg: #	Departure Airport Name/ ICAO	Stop-over Locations/ ICAO	Destination Airport Name/ICAO	Airline ID	Flight # (*):	Aircraft	Distance (Nautical Miles)	Min Alt (VFR) (Feet)
	Departure Autopilot NOT recommended (SPB/water moorings indicated by *)	* All stop-over landing rates, where applicable, are accepted to a max of -600fpm. (SPB/water moorings indicated by *)	Destination (SPB/water moorings indicated by *)	MFC	* All stop-over landing rates, where applicable, are accepted to a max of -600fpm. (* For Tour Leg use the Tour Center generated Flight legs#. If flying the single legs use flight # as listed below in KaCars:
