

MFC0055 Cabins by the Lakes 1 (CZST-PAGY)

Heading north from the CIRP area we enter the Yukon, Northern British Columbia and coastal Alaska. These remote areas are steeped in history and are lands of unlimited adventure; it's a constant struggle for survival for man and animal alike. From the towering Rocky Mountains to the rugged Coast Range and then on to the Pacific Ocean, this part of North America promises the visitor some breathtaking scenery.

Stay at these cabins and experience the natural beauty and remote solitude around you. Take yourself back to simpler times by splitting some wood for a blaze in the cabin's wood stove under the light of an oil lamp. Enjoy the warmth as your gear dries out from a long day, perhaps a journey down the mighty Yukon River or an icy traverse across a glacier. Whether it be a recreational boat trip or hunting expedition, you'll have plenty of adventures by visiting these wooden shelters and make memories to treasure for a lifetime.

Cabins by the Lakes version 1.0 is a scenery project by Brad Allen that includes 30 locations found in the back country of the ORBX/FTX region "Southern Alaska".

Again the Maule M7, C185, Beaver - Amphibians fixed wing are the most flexible - or small rotorcraft floats are perfect for this cabin hops and small airstrips trip. (Will try the Beaver or Maule (Amph) this trip).

Have fun and enjoy the trip to the various cabins and other POI in this trip.

Tour Flight Leg Rating Conditions: "6A0"

MISTY FLYING CLUB – MFC0055 CABINS BY THE LAKES 1 (CZST-PAGY): TOUR CONDITIONS

Conditions/Restrictions to successfully complete this VA Exploration:

All landings, including stop-overs, must not exceed a landing rate of greater than **-600fpm**. In this excursion there are one or two stop-overs in each of the flight legs. Remember all stop-over landings as well as the final destination landing all must be -600 fpm or under!!

Have an eye on your other operational practices and try to adhere to the aircraft tolerances of the aircraft you are flying: IE over-speed conditions, over speed flaps/gear use etc. as they can cause major damage to the aircraft. And of course PLEASE DON'T CRASH! Aircrafts are very expensive to fix and/or replace and we sure don't want any injuries to our MFC pilots! Enjoy the trip in this area!
