

This trip takes place **outside** the Alaska ORBX regions and the island covered are currently outside the RTMM scenery development area however we travel this excursion to the extreme far west of Alaska Island Chain to see the natural landscapes of the volcanic island referred to as the Aleutians: the northernmost part of the Pacific Ring of Fire.

**There is one requirement: a Freeware for Airport - 7AK - Akutan Airport – Alaska. This can be found at AVSIM:**

**LINK: <https://library.avsim.net/search.php?CatID=root&SearchTerm=paut&Sort=Added&ScanMode=0&Go=Change+View>**

(This scenery is required to be able to see this airport location as it does not exist in the default sims).

[https://en.wikipedia.org/wiki/Aleutian\\_Islands](https://en.wikipedia.org/wiki/Aleutian_Islands)

There are a ORBX few scenery pieces that add to the natural landscapes covered in this excursion: (Not mandatory).

We would encourage use of these software additions as they do enhance the scenic areas: **FTX/ORBX Scenery (Payware)** <https://orbxdirect.com/>

**FTX Global Range:**

- FTX Global BASE Pack
- FTX Global Vector
- FTX Global open LC North America
- FTX Global Trees HD

**North America Product Group: Regions**

- ORBX NA Freeware airports.

**If you have any issues or problem setting up your scenery, just let us know and we will be glad to assist you.**
